CIRCLE OF GROWTH

From propagating Calculus, inventing the decimal system and discovering the concept of zero that ushered the ancient world into an era of mathematical awakening and fueled global imagination to becoming a country ruled by colonial power for centuries.

From being troubled by the challenge of brain drain to realizing that brainpower has been the most important export of India and becoming a Global IT hub in the 21st century, India has completed a full circle of IT growth.

And this is just the beginning.

- Solar power will be utilized for solar water heating as well.

THE SPACE FOR NEW IDEAS: NOIDA

There is no denying the fact that NOIDA is 'the investment hotspot' for the real estate sector in North India

Jewar International Airport

IKEA is all set to begin work of its biggest store in Noida

Proposed Film City

50 investment proposals worth Rs 7,000 crore from international investors

Existing upcoming projects are just a small indicator of Noida's growth potential.

Government policy decisions indicate strong growth prospects of Noida's real estate sector.

Central Government's offer of 3 yrs. tax relaxation to Startups and inclination of multinationals in shifting base from China to Noida are major indicators of growth in jobs and economic activities in the area.

3 international manufacturers have already acquired 15000 sq. mt. land near the upcoming Jewar international airport and numerous other such projects are in the pipeline.

Noida is brimming with opportunities for the development of not only social structures such as business parks, retail hubs, entertainment zones, recreational centers but dedicated 'Experience Zones' designed to boost the growth of organizations operating in specific sectors and allied services.

PARKS WITH MORE PERKS

IT Parks bring together

- Premium specification office spaces
- Residential areas
- Retail developments

Successful IT parks focus on fulfilling all the requirements of IT sector companies

- In terms of infrastructure & environment
- Availability of suitable human resources,
- Accessibility for workers and raw materials

The primary objective of a well-designed IT park is to create an environment where IT companies can co-exist, collaborate and progress towards realizing their full potential in

- Software development
- Hardware manufacturing
- IT-enabled services
- Research & development
- Training

IT Parks also create significant spinoff benefits. Some of them are

Attraction
for investors

The establishment
of companies

infrastructural
development

IT IS THE PLACE TO INVEST

Along with specialized office spaces and advanced technology support for highspeed internet and data storage, spectacular design of i-Thum's 73 includes space for a spectrum of dedicated commercial facilities that can support the high-pressure lifestyle of a time-crunched and ambitious IT workforce

The fact that IT workforce is a collective of individuals with high purchase capacity, creates an opportunity for the development of

Retail Hubs

Restaurants

Residential facilities

Serviced apartments

Data Centers

Storage facilities

Health care facilities

Concierge services

and much more...

This ensures ample Return on Investment for business owners and also increases the real estate value of the project along with its surrounding area.

PICTURE PERFECT PROGRESS

From ideation to accessorizing, one simple thing that makes i-Thum's73 superior to any of the other real estate projects is our guiding principle.
